SKILLS

- **Languages:** JavaScript, Java, C++, C, PHP
- **Frameworks**: React.js, Node.js, Express.js, SQL, Tailwind CSS, Redux Toolkit.
- **Tools/Platforms**: MongoDB Atlas, Postman, Git, WebSocket, JWT, REST APIs, Vercel.
- **Soft Skills**: Communication, Problem-Solving, Team Collaboration, Time Management, Adaptability.

PROJECTS

Automated Attendance System (AttendX) | GitHub Feb' 26 - Mar' 26

- Built a full-stack attendance system to replace manual tracking to manage records through a centralized platform with role-based access and a responsive UI.
- Developed RESTful APIs for attendance, student management, and analytics with efficient state handling. Implemented automated email notifications to inform parents about student absences, improving communication and accountability.
- Ensured secure and scalable performance using JWT authentication, protected routes, and optimize MongoDB queries for handling large datasets.
- **Tech**: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, JWT, Axios, GSAP, Nodemailer

Real-Time Chat Application | GitHub Nov'25-Dec'25

- Developed a real-time chat application enabling multiple users to communicate instantly using client–server architecture with secure message handling, low-latency delivery, and reliable performance.
- Implemented WebSocket-based communication using Socket.IO to manage user connections, enable real-time message broadcasting, and handle disconnections efficiently, ensuring stable connectivity, low latency, and reliable system performance.
- Designed a lightweight backend using Node.js and Express to manage events, serve static files, and support real-time data flow with efficient request handling and optimized server performance.
- **Tech:** Node.js, Express.js, Socket.IO, WebSocket's, JavaScript, HTML, CSS.

TRAINING

Java GUI Application Development Project Jun' 25 – Jul' 25

- Gained hands-on experience in Java programming, GUI application development, and core object-oriented principles through practical implementation, feature development, and real-world problem-solving.
- Designed and developed a GUI-based quiz application featuring multiple-choice questions, a 15-second countdown timer, and a 50–50 lifeline with real-time score evaluation and performance tracking.
- Implemented event handling, interactive UI components, and multi-screen navigation (Login, Rules, Quiz, Score) to ensure smooth application flow, while strengthening understanding of MVC structure, flow control, and user centric interface design.
- **Tech:** Java, Swing, AWT, OOP, Event Handling, MVC Architecture.

CERTIFICATES

- Computational Theory|**Infosys Springboard** Aug'24
- Social Networks (IIT Madras) |**NPTEL** Apr'24
- Responsive Web Design|**FreeCodeCamp** Nov'23

ACHIEVEMENTS

- **Hacker Rank Skill Certifications (JavaScript & C++)** Dec'25
  Earned certifications by clearing standardized coding assessments.
- **Solved 200+ Data Structures & Algorithms Problems Across Multiple Platforms)**
  Mastered core DSA concepts by solving 200+ problems across LeetCode, Hacker Rank

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.0*** *Aug' 23-Present*
- **Millia Convent English School** Bihar, India
  Intermediate; ***Percentage: 67%*** *Apr' 21– Mar' 22*
- **Millia Convent English School** Bihar, India
  Matriculation; ***Percentage: 79%*** *Apr' 19 – Mar' 20*
